Appendix A: ebIX® rules for how to make MRs to WG16

Attachment:

1. Appendixes for ETC minutes (docx)
2. ETC workplan (see ebIX® file manager at <https://filemanager.ebix.org/#>)

1 Approval of agenda

The agenda was approved.

Prioritised items:

- Status for a common ebIX®, EU DSO Entity, ENTSO-E (CIM EG) and ENTSOG Area project, see item 3.
- MRs to WG16 CIM modelling team and Information from IEC meetings, see item 4.1.1.
- Status for versioning discussions in CIM EG Retail market subgroup and WG16, see item 4.3.2.
- Status for European (ebIX® and IM EG Retail market subgroup) MRs to CIM, see item 4.4.

2 Approval of minutes from previous meeting

The item was postponed.

3 Status for a common ebIX®, EU DSO Entity, ENTSO-E (CIM EG) and ENTSOG Area project

Both the EU DSO Entity and ENTSO-E are positive but have not yet found any participant(s). ENTSOG will participate as observer.

Ove will remind EBG to send a mail to ebIX® members and ask for nominations for the common area project.

4 Resolve ebIX®/IEC issues

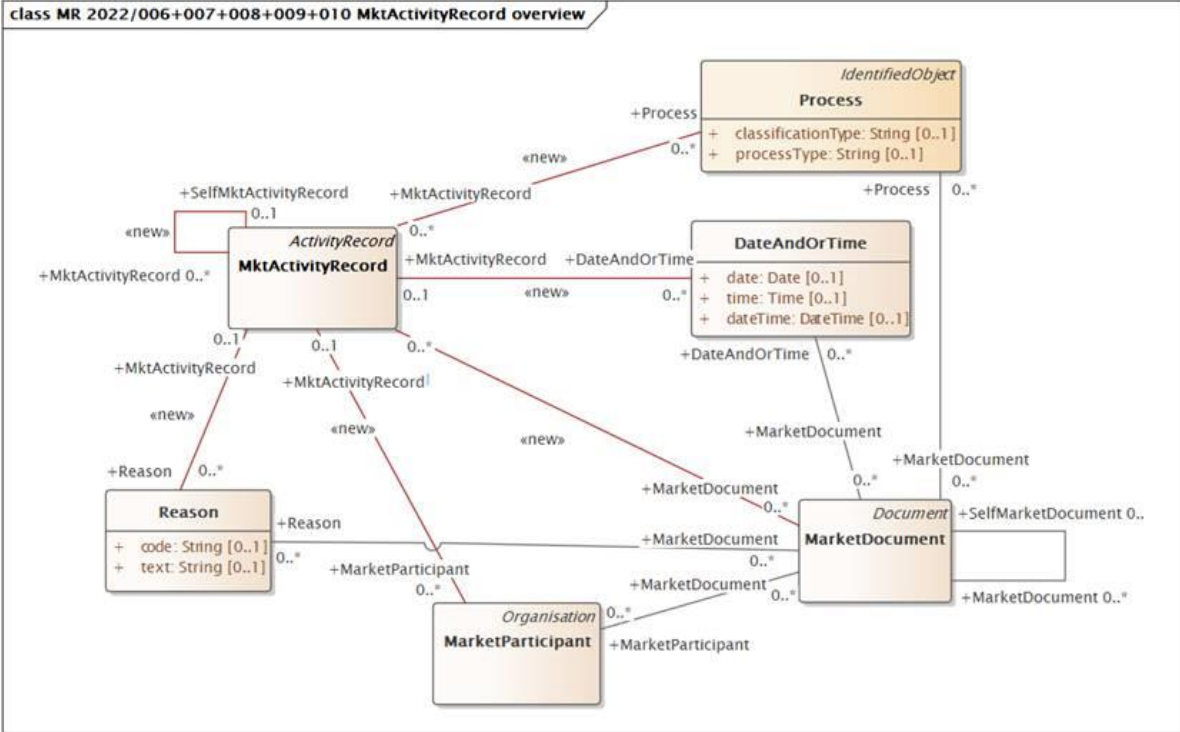

4.1 Making a European Style Downstream Market Profile (ESDMP)

4.1.1 [MRs to WG16 CIM modelling team and Information from IEC meetings](#)

MRs to WG16 and their status are found in a separate document “MRs from ebIX to WG16”. The document can be downloaded from the ebIX® File Manager.

Minutes from WG16 meetings can be found at: [WG16 / Modelling-Team-Minutes](#).

Jan (SE) informed from the WG16 modelling team meeting March 31st:

When briefly showing the figure above Becky noticed that we have not (yet) provided the MRs for the associations between MktActivityRecord & Reason & MarketParticipant.

Another thing that I noted myself was that we will need some examples showing when a “DateAndOrTime” or a “Process” etcetera are to be associated with a MktAcitivityRecord.

But I think I can look that up within the ebIX® documentation. To be presented at the next CIM EG Retail market group meeting.

Ove replied that there are examples in the MRs of “examples showing when a “DateAndOrTime” or a “Process” etcetera are to be associated with a MktActivityRecord”, such as:

The association from MktActivityRecord to DateAndOrTime is typically used for:

- A start date and/or end date, such as for start or end of supply.
- A snapshot date, such as when the master data from a MarketEvaluationPoint was extracted from the database, telling the situation in the database at a specific date and time. The date can then be another date than when the message was exchanged.
- A Validity date, i.e. the date when an event or object was or will be valid.

We will not update the MRs already submitted now – Jan (SE) will instead show examples in a PowerPoint presentation. The topic will be continued under item 4.4.

The bullet points below were rephrased.

Actions:

- Kees will try finding the definition of source and target for associations according to UML and CCTS.
- Jan (SE) and Kees will try finding contradictions between the usage of source and target between basic CIM (301) and ESMP (351).

4.1.2 [MRs based on Dutch requirements](#)

The item was postponed.

4.1.3 [Status for governance of reference models: basic IEC CIM and ESDMP \(follow-up item on the agenda\)](#)

Alvaro is maintaining the latest version of the ESMP, based on decisions in CIM EG. Hence, these updates are extensions to the CIM 62325-351 standard. Currently the ESDMP is maintained by ETC.

Jan informed that Alvaro and Jan (SE) will do a QA of the latest update of ESMP on Friday April 22nd, before Alvaro will submit the updated version to Becky.

4.2 [Status for ENTSO-E CIM EG Retail market subgroup \(follow-up item on the agenda\)](#)

The item was postponed.

4.3 [Preparations for coming WG16 meetings](#)

4.3.1 [ebIX® MRs to WG16 – discussions with CIM EG](#)

The item was postponed.

4.3.2 [Status for versioning discussions in CIM EG Retail market subgroup and WG16](#)

Status/review of draft proposal for versioning of CCs and payloads after presentation for CIM EG Retail market subgroup Wednesday March 30th.

Kees informed that there was “no real opposition” at the latest CIM EG Retail market subgroup meeting. Kees/Jan (SE) will bring up the topic once more in the CIM EG Retail market subgroup (Wednesday April 27th) and if no blocking comments bring it to WG16 (May 5th). Thereafter it will be proposed have a e.g. three months trial period.

4.4 [Status for European \(ebIX® and IM EG Retail market subgroup\) MRs to CIM](#)

Review and update of Excel sheet keeping track of the MRs sent from ebIX®, via the CIM EG Retail Market Subgroup to WG 16. The Excel file is uploaded to the Teams “Team” “ebIX® ETC” where Jan (NL), Jan (SE), Kees and Ove can edit the document simultaneously.

Ove had as action moved the 5 first MRs and the three last (2022/011, 2022/012 and 2022/013) from the current Word document to the new Excel sheet and update it in the Excel status sheet from Jan (SE).

Jan (NL) had added the Dutch MRs to the Excel file.

Ove had also, on request from Jan (SE) (and WG16), made two draft MRs: ebIX® 2022-009 (add association MktActivityRecord – MarketParticipant) and (ebIX® 2022-011 - add association MktActivityRecord – Reason).

Action:

- Jan (SE) will update the dates and status for the latest submitted MRs in the common Teams Excel sheet.

Appendix A ebIX® rules for how to make MRs to WG16

- 1) Artefacts used for MRs to WG16 shall be stored as separate packages in the common cloud EA model.
- 2) Always review existing definitions of attributes, classes etc. that are related to the MR in question and if needed propose updates to these definitions.
- 3) First investigate basic CIM to see if the object we intend to send an MR for already is available there.
If yes, we should make a MR for 62325-351 (ESMP), if not we make a MR for both basic CIM and ESMP.
